Message
from the G.M

About Us :

- | **Electrocivic for General Construction** started as a statement against the sloppy professional standards that dominated the field of construction services 10 years ago. We wanted to set a new, high standard and work as consultants, solving our client's problems.
- | The company quickly grew and cemented itself as the new golden standard in commercial construction. Today we continue to build on that legacy and strive for excellence in everything we do.

02

Our vision

Our vision

is to be a leading construction company recognized for our excellence, reliability, and commitment to sustainability. We aspire to set new benchmarks in the industry by continuously improving our processes, embracing technological advancements, and nurturing a culture of collaboration and integrity. Through our dedication to quality and customer satisfaction, we aim to build lasting relationships with our clients and partners, and to leave a lasting impact on the built environment.

03

Our mission

Three ideas

Commitment to delivering exceptional solutions

At Electrocivic for General Construction, our goal is to provide exceptional construction and infrastructure solutions that exceed our clients' expectations.

High standards of quality, safety, and efficiency

We are committed to maintaining the highest standards of quality, safety, and efficiency in every project we undertake.

Innovation and sustainability

By fostering innovation and leveraging our expertise, we aim to create sustainable and enduring structures that positively contribute to the communities we serve.

04

Our Services

Civil Construction

Expertise in excavation, finishes, and MEP (mechanical, electrical, plumbing) works.

Industrial and Residential Projects

Comprehensive project delivery from start to finish

Electrical Infrastructure

Providing reliable low to high voltage services for energy distribution.

Sports Facilities Construction

Building clubs and sports courts with full infrastructure.

Equipment

Electrocivic's cutting-edge equipment and machinery are essential to their success. Their fleet likely includes high-performance excavators, cranes, and concrete mixers that ensure precision and efficiency in every project. These machines not only streamline construction processes but also guarantee safety and quality in complex tasks like excavation, civil works, and electrical infrastructure. By leveraging such advanced tools, Electrocivic consistently delivers robust and sustainable structures, showcasing their commitment to innovation and excellence in the construction industry.

1. The company's commitment to international standards:

The company demonstrates its commitment to international standards for occupational safety and health, ensuring a safe and healthy work environment for employees and customers

4. Evaluation and auditing:

The company conducts periodic evaluations to ensure the implementation of occupational safety and health standards, which helps identify any weaknesses and work to improve them.

2. Training and development:

The company invests in training employees on occupational safety and health procedures on a regular basis, ensuring that all individuals are aware of the latest practices and procedures.

5. Safety culture:

Electrocivic promotes a culture of safety in the workplace, which enhances employee commitment to procedures and encourages the adoption of best practices.

3. Modern equipment and technologies:

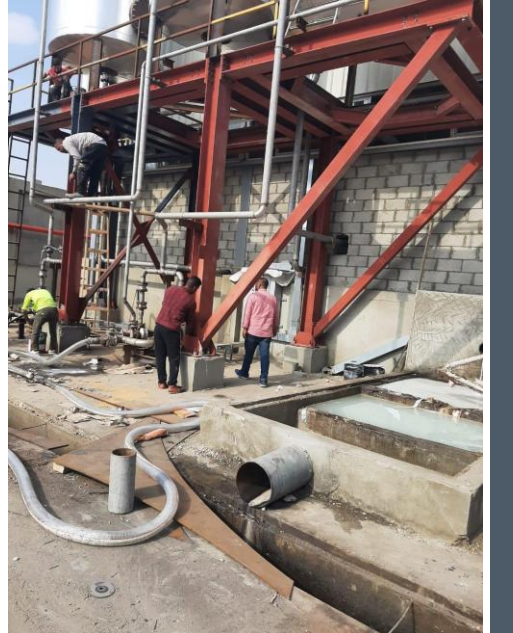

Electrocivic uses modern equipment and technologies that support safety and reduce potential risks in the work environment.
